OPIS PRODUKTU

The HandScanner allows workers to be faster, more efficient and improve the quality of their work. The users can easily pick up, carry and interact with objects, avoiding the need to repeatedly put down and pick up the scanner. This leads to an improvement in productivity, better scanning accuracy and a drastic error reduction. The HandScanner has outstanding performance capabilities allowing it to scan 1D/2D bar codes whether they are horizontal, vertical, flipped or scanning from a wide range of angles. With its lightness, small footprint and natural working motion, users will find that the HandScanner facilitates an ergonomic experience in their daily operations. The HandScanner is available in two versions: Standard and Mid-range, and able to cover scan ranges from 10 to 150 cm satisfying many verticals in different industries. Combining the HandScanner with Datalogic's mobile computers provides workers with a full data collection solution suitable for any kind of application.
